

Please ensure your pop-up blockers are disabled.

Date and time: March 28, 2024, 3:00pm

What is happening: Update to Ilink Password Requirements to conform to the DSG|UW password policy.

1. Passwords will expire after 90 days.
2. Reject previous passwords.
3. Passwords must contain a minimum of 14 characters and maximum of 25 characters.
4. Passwords must contain at least:
 - a. One special character
 - b. One upper case character
 - c. One lowercase character
 - d. One numeric character

What this means: Users that access Ilink will be forced to change their passwords after March 28th if they have not been updated within 90 days of the change.

When you login a popup message (screen shot provided below) will be displayed along with a message that your password has expired. You need to make sure you do not have pop-ups blocked in your web browser. If they are blocked by your browser, you will not see the below to change your password.
